

**The Report of TOWARD a SCIENCE of CONSCIOUSNESS
STOCKHOLM, SWEDEN –MAY 3-7,2011-AULA Magna Hall**

K.I. RESEARCH INSTITUTE Koei Endo Ikuyo Endo

Stockholm university

AULA MAGNA Hall (The Nobel prize recipient winning memorial lecture venue)

AULA MAGNA HALL (The Nobel prize recipient winning memorial lecture venue)

Oxford Professor **Sir Roger Penrose** Research Presentation
Plenary 11 11:10am to 12:30pm May 6th in 2011 AULA MAGNA Hall
Keynote, Consciousness and Physical Law Abstract 201

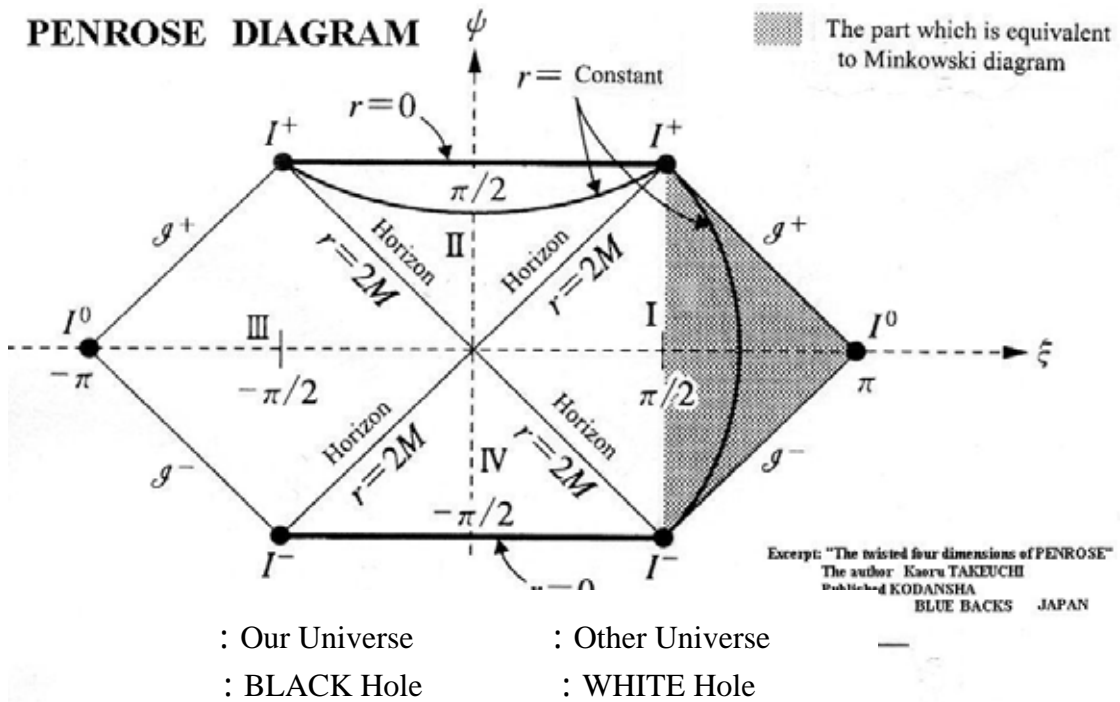

Sir Roger Penrose who does a research presentation

The talk by immediately after the lecture ending on the platform. It is M.D. Stuart Hameroff of the University of Arizona professor of this conference promoter on the right of Sir Roger Penrose. Among two, it is Koei Endo behind.

PENROSE UNIVERSE

Koei Endo which explains the research of IKOSOLID SCIENCE to **M.D. Stuart Hameroff** of the University of Arizona professor of this conference promoter. In the art and the scientific technology exhibition hall at the the 2nd floor AULA MAGNA HALL lobby. The participation to this conference is recommendation by email on March 7th in 2011 from Prof. M.D. Hameroff .

The open experiment of the 90 degree topological transformation which depends on IKOSOLID(By this experiment making the real number an imaginary number)”Leakage-flux reducing effect experiment with IKOSOLID It shows an experiment to Prof.M.D. Hameroff.

The research presentation of **Koei Endo** (**Koei Endo** and **Ikuyo Endo** joint research)

May 4th in 2011 at AULA MAGNA HALL (The Nobel winner winning memorial lecture venue)

Concurrent Session 16 4 : 35pm to 6 : 35pm

The 90 degree topological transformation with IKOSOLID - The unifying revolution to the foundation on quantum mechanics / Abstract 137 / 20 minute lecture and Q and A in 5 minutes

The research presentation of **Prof. M.D. Stuart hameroff**(Plenary 13 May 7th in 2011 8:30am to 10:40am Meyer-Overton Meets Quantum Physics: Consciousness, Memory and Anesthetic Binding in Tubulin Hydrophobic Channels / Abstract 131 at AULA MAGNA HALL)

The promoter of being the initiator of TSC Toward a Science of Consciousness. The beginning is in the joint research of the 2 year consciousness science with the Oxford Sir Penrose . This conference is opened in University of Arizona Tucson in the even number year and the odd year, it is opened overseas.. The scholar researcher of the physics, the medicine, the mathematics which exceeds 600 from about 65 countries gathers, and the researcher of the psychology, the philosophy, the art field, too, gathers round. Releasing with Plenary , Concurrent, Art-Tech, Poster is done.

There are Nobel chemistry prize winner French **Dr. Luc Montagnier** in the participation lecturer of Plenary this time. (Plenary 9 May 5th in 2011 2:00pm to 4:10pm DNA, Waves and Water / Abstract 135) And **MD.Deepak Chopra**(Plenary 3 May 3rd in 2011 2:00pm to 4:10pm The Chopra Center, Carlsbad-Vedic Approaches to Consciousness and Reality Abstract 204) so on .
